SQL Code

```sql
1   -- Write a query to create database with name pizza_sales_analysis.
2
3   create database pizza_sales_analysis;
4
5
6   use pizza_sales_analysis;
7   -- Write a query to see list of all databases.
8   show databases;
9
10  -- Write a query to create following table.
11
12  create table orders(
13  id int,
14  data date);
15
16  -- Write a query to add column time with datatype time after date column in above
    order table.
17
18  alter table orders
19  add column time time ;
20
21  -- Write a query to rename the table order to orders.
22
23  rename table orders to order2;
24
25
26  --   6. Add primary key constraint to the column id on existing table orders.
27
28
29  alter table order2
30  modify column id int primary key;
31
32  desc order2;
33
34
```
